Abstract

The abstract should be one column formatted and contain about 100 to 300 words. Please do not use references in the abstract.

1 Introduction

The paper structure is exemplary and can be adjusted according to your needs. The standard text size is 10 pt, and we use Times New Roman as the standard font. Paragraphs are not indented and the alignment is 'justified'. Please do not add page numbers since they will be added in the final conference proceedings layout.

Figures should have a width of 6.5 cm and be placed in the text when first mentioned and centered. The caption is placed below; the caption font is Times New Roman, non-italic, font size 9.

See for example Fig. 1

Figure 1. Add your caption here.

Tables should be centered and the caption placed above. The caption font is Times New Roman, non-italic, font size 9. Place the table when first mentioned and refer like this: Table 1 illustrates the use of tables.

Table 1. Add your caption here.

ID	Property 1	Property 2	Property 3
1	A	B	C
2	D	E	F
3	G	H	I

Footnotes should be placed after punctuation characters, without any spaces between said characters and footnotes, like in this example.¹

Equations are numbered continuously:

$$\Delta U = \Delta Q + \Delta W \quad (1)$$

$$\Delta S = \frac{\Delta Q_{rev}}{T} \quad (2)$$

The bibliography is embedded at the end of the main latex document. Examples referring to a book (Mittelbach et al., 2004), a journal paper (Knuth, 1984) and a conference paper (Lesk & Kernighan, 1977) are provided.

2 Methodology

Subsections and subsubsection are numbered with Arabic numbers and italicized

2.1 Subsection

2.1.1 Subsubsection
