1 Background

The extended abstracts are mandatory for all types of papers. The information should include:

– Title which clearly indicates the research topics.

– Authors, names institute, country and email address. The first/presenting author is responsible for ensuring that all authors have agreed to be coauthors.

– Keywords (3-5)

The text includes:
– Background, Aims, Materials and Methods, (Results, Conclusions, References).
– Figures and tables are allowed.
– Length of the abstract is about 700 words, or with figures and tables maximum two pages.

2 Aims

The extended abstracts are the first submissions and the preliminary ones are updated for the publication. For all the accepted submissions, the final extended abstracts are published in the book of abstracts.

The heading can be modified to present focus on the application or development area.

3 Materials and methods

The heading can modified to focus on the materials and/or methodologies which are used in the paper.

4 Results

Optional in the first submission, later updated for the final version in the Book of abstracts. The heading can modified to focus on the application or development area.

5 Conclusions and future development

Optional in the first submission, later updated for the final version in the Book of abstracts.

References

Optional: the references, which are used in the text, are referred here with numbers.
